The upcoming availability of a safe and effective COVID-19 vaccine is an exciting development in the fight to get the pandemic under control. Given the possibility that vaccines will be available as early as mid-December, it is important that essential workers are informed about the development, safety, efficacy, and equitable distribution of vaccines. This event is designed to provide you with information from credible sources and answer your questions about forthcoming COVID-19 vaccines.

### Moderator:

**Dr. David Michaels** - Professor at GW University's School of Public Health and former Assistant Secretary of Labor for Occupational Safety and Health (OSHA) under President Obama

### Remarks:
